Sustainable Management of Local Cultures

We engage for the cultures and their sustainability worldwide.

We provide cultural intelligence to local governments and companies.

We are specialized in:

Cultural Awareness
Cultural Risks & Impact Assessment

We are promoting:

Cultural Sustainability
Corporate Cultural Responsibility
Local Cultural Resilience
Post-Globalization

We use culture as a trigger point for local communities to develop and be sustainable.

We provide visibility to governments & companies thanks to cultural sustainability.

Cultural Sustainability

Be Visible

Create Value

Avoid Risks

Maximize Impact

« Cultural Returns On Investment »

Cultures to revitalize local economies through innovative strategies and products.

Cultures to give a place to our local communities in the globalized world.

Cultures to promote both the *inclusiveness* -ability to integrate the outsiders- and the *exclusiveness* -ability to be different from the others- of our societies.

Cultures to facilitate the dialogue 'local governments - communities - companies' through common win-win-win strategies.

Cultures to lead to better corporate resilience and localization.

Cultures to better connect and avoid risks with the local stakeholders.

Cultures to the maximize impact of environmental & social strategies.

Cultures to better contribute to the territories in which we operate.
